

ProSystem fx Tax v. 2009.03040 Kentucky Partnership Composite Scan

Kentucky Composite Returns - Form 740NP-WH will now be used for the composite return estimated tax payments. In prior versions, Form 740-ES was incorrectly used. Payments already made using Form 740-ES for the composite return have been applied to the wrong account. The Kentucky Department of Revenue is aware of this and is actively moving the payments that they discover to the correct account. However, they recommend that taxpayers contact the Kentucky Department of Revenue to verify that all affected returns have been detected.

This scan identifies 2009 Partnership returns that may have composite estimates for Kentucky.
