ProSystem fx Tax
The 2010 Individual Arkansas Extension Scan

Arkansas Form AR1000ES extension tax payment vouchers have an incorrect digit in the scan line. The result is that extension payments may be credited to 2011. This could generate an incorrect amount being applied to the 2011 tax year, and an underpayment of tax for 2010. The Arkansas Department of Revenue is attempting to flag these vouchers so the funds are applied to the 2010 tax year with no action from the taxpayers.

This scan will identify potentially impacted Individual Arkansas returns that are calculated before Release 2010.04010.

To install this scan:

1. Download the scan program into your ?:\WFX32 directory.
   (where ? is the drive letter where your ProSystem *fx* programs reside)

   Download W10IAREX.EXE

2. From Start/Run type ?:\WFX32\W10IAREX.EXE
   (where ? is the drive letter where ProSystem *fx* programs are installed)
   This self-extracting executable file will open a dialog allowing the user to select the location where the scan files will be extracted. The default location is C:\Wfx32 and should be changed to the user's Wfx32 directory location as appropriate.

To run this scan:

1. From Start/Run type ?:\WFX32\2010ARExt ?
   (where ? is the drive letter where ProSystem *fx* programs are installed)
   Please remember, do not add a colon " : " after the last question mark (drive letter).

2. The scan output will automatically be sent to a text file which will be opened in Notepad. You can then use Notepad to print a copy of the scan output.
